Gail & Adam,

Thanks for pulling us together! Hopefully now no one has an excuse, I gave this morning. IGEL is an important priority for me. You all are terrific.

Carol

Well I made Gail and Jaime work hard for it....but I am in. With the Gov Shutdown...I think Carol Kemker is the only Class 4 member with a good excuse for not contributing. Hope to see you at the Summit.

The more observant of you will notice that our class is now divided between the "to" and the "cc" address lines of this message. If you're on the "to" line, it means the scorekeepers think you are still in the "fixin' to give" category. **Now is the time to go from "fixin' to give" and become one of the "done did" folks, with Adam and myself.**

Why is this important? There's what it means for IGEL -- demonstrating the value to other funders and supporting participants in upcoming classes. Beyond this, our class's reputation

is on the line! You can look at our class participation as a competition, if you're inclined -- or you can look at giving to IGEL as something that's just a good thing to do.

Plus, remember that:

**IGELIENS HAVE A CHANCE FOR A TRIP TO LITTLE ST. SIMONS ISLAND!!!**

This is a package valued at \$1,600! Further, to avoid dilution, IGEL will add a package each time we pass another 100 qualifying donations. To be qualifying, a contribution has to be at least \$195.

So, for those of you who have not already given, I ask you to stop what you're doing and make a donation at:

Just click this link: [Alumni Campaign Donation Form](#)

I appreciate you taking a moment to re-connect with what the IGEL experience meant for you and to give to help others have that opportunity.

Gail
